OVERVIEW

ABOUT US

Along with today's ongoing advancements in the fields of technology and science come the necessity for the birth of new intelligences, integrations, support, solutions and various other breakthroughs! For that and to compliment any existing business into achieving its goals in a more structured and business oriented manner, i2s3 (Integrated, Intelligent Support, Services and Solutions) has been established.

With expertise and knowledge that has been pooled from across the globe, i2s3 stands out bright in the market. That, from one end and the backing up by leading enablers, technology implementers and solution providers give it a unique cutting edge over others out there. i2s3 operates in a diversified operations field that includes banking and finance, telecommunication, retail, oil and governmental enabling it to be a one stop of creative intelligent solutions and supported services.

“

i2s3 has a dynamic team of highly qualified, certified professional personnel that act as the core engine that drives to excellence, best services and end results.

The firm strives to deliver and bring its customers with unparalleled business solutions via unique combination mixes of local market presence, international level skills, a network of business partners and the access to the global resources of our leading partners.

Our objectives constitutes of mainly on:

- ❖ Doing business the creative, intelligent way.
- ❖ Enhancing and advancing firms through unique services using adaptive technology.
- ❖ Integrating and connecting businesses with one another and with individuals.
- ❖ Provide top class business advice and consultation.
- ❖ Giving value added benefits via international alliances and partnerships.

The background is a solid teal color. It features several large, organic, wavy shapes in a slightly darker shade of teal, which appear to flow from the right side towards the left. Additionally, there are three solid teal circles of varying sizes: one at the top center, one at the bottom center, and one on the far right edge.

SERVICES

TECHNOLOGICAL SERVICES

“ The focal point of i2s3 when it comes to the technological aspects of the business comprises mainly on software solutions, IT infrastructure and continuous consistent high quality support and solutions.

IT INFRASTRUCTURE

i2s3 offers an integrated, easy-to-use set of business intelligence solutions that can help you save time, provide a new level of insight to enable better enhanced decisions to be taken. i2s3's IT infrastructure assists you to step back and take a strategic overall view of your business - where you are, where you want to go and how to better leverage the resources you have to achieve your targets.

IT infrastructure team focuses on implementing the end-to-end IT infrastructure solutions that consist of a fully reliable, integrated and secure system that is backed up by the required support and maintenance. This is not confined to, but includes infrastructure cabling, building and/or maintaining data centers, establishing and implementing disaster recovery centers and solutions.

i2s3 has deep consulting experience that spans over both IT and business, bringing them together and managing them in a smarter, more streamlined structure. Therefore, our core intelligence is built from the realization that the business continuity and systems availability has grown to become a very vital aspect of today's IT deployment.

SOFTWARE SOLUTIONS

i2s3 Software solutions team is dedicated to building and implementing state of the art solutions in order to enhance the customers' overall business. These solutions include but are not limited to the following:

- ❖ Business Process Management Solution
- ❖ Business Intelligence Solutions
- ❖ Content Management Solutions
- ❖ Enterprise Resource Management Solutions
- ❖ Medical Solutions

SUPPORT AND SERVICES

Our support and services team is focused on providing industry leading system support for our valued client base. The division is also responsible for in-field repairs and ongoing system maintenance.

FINANCIAL SERVICES

“ The financial services aspect of i2s3 pays special attention primarily on the payment, card and financial channel management solutions of the global markets with key focus on the banking, retail and telecommunication sectors.

We are dedicated to provide our clients with innovate, secure, and reliable payment gateway solutions, covering the full spectrum of payments and customer interaction channels.

BANKING AND TELECOMMUNICATION SOLUTIONS

A successful solutions diversification strategy has expanded i2s3's footprint through strategic alliances with associated partnerships that have empowered us to offer valuable financial solutions such as:

- ❖ Payments management like automatic teller machines (ATMs), Merchant Acquiring, Mobile payment and cards management.
- ❖ Banking Channels
- ❖ Online Banking (personal, business, corporate & mobile banking)
- ❖ Branch Automation (teller, customer services and sales & marketing)
- ❖ Testing Tools

FOREX SERVICES

“

Our clients can also enjoy a wide range of secured foreign exchange and investment services that are provided through our alliance with City Forex foreign exchange.

FOREX services make it possible to have commission free foreign currency banknotes and travelers cheques at the best market rates at the time of exchange. City Forex also focuses on low-cost and secure bank-to-bank transfers, internationally, at commercial rates of exchange with international payments.

Additional information on City Forex and its services can be found on their official web page: www.cityforex.co.uk/

EVENTS & PR SERVICES

“

i2s3 Events and PR are provided by one of our distinguished business alliances and partnership, namely VIBE.

VIBE is considered to be one of the very best in strategic event marketing, planning and management, organizing private, corporate and public events all across main land Europe, GCC, Levant & North Africa.

For more details on VIBE, you may also visit their official website: <http://vibeme.net/>

VIBE

PAYMENT SERVICES

“

i2s3 deploys payment infrastructure, services and technology to banks, financial and non-financial institutions alike. The payment hub will be a service that various organizations can link into and provide their services to the mass public through the convenience of a mobile device.

The payment gateway gives immediate convenience to various customers and introduces the financial services to potential prospective through portable devices. i2s3 Mobile services includes complete mobile banking facilities, bill payments, airtime top-up, ticketing, domestic person-to-person transfers and integration to international remittance services for seamless usability. The service is to be extended in the future to include government disbursements, merchant payments, corporate payroll and cashless delivery.
